ARE YOUR FUEL PUMPS CORRECTLY REGISTERED?

The Texas Department of Agriculture (TDA) classifies fuel pumps that dispense at a rate less than 20 gpm in two categories: those that dispense only **one** product through a single nozzle and those that are capable of dispensing **multiple** products through a single nozzle. By distinguishing these devices, our licensing data will be more accurate and TDA will be better equipped to meet the needs of our customers.

To aid you in this classification process, listed below are examples of fuel pump device classifications and fees. Please note that each nozzle represents a single device code and must be registered individually with TDA.

Note: Only one (1) Consumer Information Sticker is required on each face of each dispenser as illustrated in the picture below. Replacement stickers can be ordered when they become faded, damaged or missing.

If you have any questions or need additional information, please feel free to contact us on our toll-free number, 1-800-TELL-TDA (1-800-835-5832).

Fuel Pump
(one product per nozzle)
Fee: $10.50 per nozzle (if gasoline) [b]
Fee: $8.00 per nozzle (if diesel) [c]

If gasoline:
$10.50 + $10.50 + $10.50 = $31.50
2 sides x 31.50 = $63.00

Fuel Pump
(one product per nozzle)
Fee: $8.00 per nozzle (if diesel) [c]
AND
(multiple product per nozzle) [a]
Fee: $31.10 [a]

Total Fee (as illustrated above):
$31.10 + $8.00 = $39.10
2 sides x $39.10 = $78.20

Fuel Pump
(multiple product per nozzle) [a]
Fee: $31.10 per nozzle

Total Fee (as illustrated above):
$31.10 per side
2 sides x $31.10 = $62.20

a Fee includes applicable motor fuel testing fee of $9.90 (Calculation: $21.20 device registration fee + $9.90 motor fuel testing fee)
b Fee includes applicable motor fuel testing fee of $3.30 (Calculation: $7.20 device registration fee + $3.30 motor fuel testing fee)
c Fee includes applicable motor fuel testing fee of $0.80 (Calculation: $7.20 device registration fee + $.80 motor fuel testing fee)

Fuel pumps that dispense fuel at a rate of 20-100 gpm or at a rate greater than 100 gpm are classified as a Bulk Meter.
Fee includes applicable motor fuel testing fee of $0.80 (Calculation: $36.00 device registration fee + $0.80 motor fuel testing fee for a total of $36.80)

Note: These illustrations represent examples of fuel pumps commonly found in the marketplace. The fuel pumps at your location may look different from those pictured above. However, all device codes and fees still apply. TDA does not endorse or recommend any particular brand of fuel pumps. The pumps pictured above are for illustration purposes only.
