

TEXAS DEPARTMENT OF AGRICULTURE COMMISSIONER SID MILLER

ANNUAL FINANCIAL REPORT

For the Year Ended August 31, 2023

TEXAS DEPARTMENT OF AGRICULTURE COMMISSIONER SID MILLER

November 20, 2023

Honorable Greg Abbott, Governor Honorable Glenn Hegar, Texas Comptroller Jerry McGinty, Director, Legislative Budget Board Lisa Collier, State Auditor

To Governor Abbott, Comptroller Hegar, Director McGinty, and State Auditor Collier:

We are pleased to submit the annual financial report of the Texas Department of Agriculture for the year ended August 31, 2023, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions regarding the Annual Financial Report, please contact Robert MacFarland at (512) 463-1701 or Sarah Shaw at (512) 463-7451 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

Terry Keel Deputy Commissioner

NOTES TO THE FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Entity

The Texas Department of Agriculture (TDA) is an agency of the State of Texas, and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts Reporting Requirements for state agencies.

The department operates under the authority of the Texas Agriculture Code Annotated (Vernon Supplemented, 1996). The functions of the department are to:

- 1) broaden agricultural markets;
- 2) provide assistance to Texans engaged in farm and ranch production;
- 3) encourage the organization of agricultural societies and farmer institutes;
- 4) aid and advance agriculture in Texas;
- 5) collect and publish statistics and other information;
- 6) investigate disease and insects injurious to crops;
- 7) protect consumers;
- 8) assist Texas communities and business people in expanding the rural Texas economy;
- 9) ensure that all children in Texas have excellent nutrition; and
- 10) execute all applicable laws relating to agriculture.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report is considered for audit by the State Auditor as part of the audit of the State of Texas Annual Comprehensive Financial Report (ACFR). Therefore, an opinion has not been expressed on the financial statement and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types & Government-Wide Adjustment Fund Types

General Fund

The General Fund is the primary operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in other funds. The General Fund includes General Revenue Fund appropriations, Texas Economic Development (Fund 0183), federal grant funds, and monies collected for activities related to the production of HEMP (GR Dedicated Fund 5178).

Special Revenue Fund

The Special Revenue Fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term "proceeds of specific revenue sources" establishes that one or more specific restricted or committed revenue source is the foundation for a special revenue fund.

The Produce Recovery Fund (0974) collects fees from license holders and fines imposed on license holders. The Produce Recovery Fund reimburses produce growers and dealers who do not receive payment for Texas-grown commodities sold on consignment or credit.

Permanent Funds

Permanent Funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the state's programs.

The Permanent Endowment Fund – Rural Communities Health Care Investment Program (0364) is a special fund in the treasury outside of general revenue created from the receipts collected pursuant to the comprehensive Tobacco Settlement Agreement and available earnings from the Account. The fund is used for the rural communities' health care investment program to provide stipends and loan reimbursements for health professionals.

The Permanent Fund for Rural Health Facility Capital Improvement (5047) is used to record receipt of money transferred to TDA from the receipts collected pursuant to the comprehensive Tobacco Settlement Agreement and the available earnings from the account. The fund is used for grants and loans to improve hospital infrastructures.

Capital Assets Adjustment Fund Type

The capital assets adjustment fund is used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

The long-term liabilities adjustment fund is used to convert governmental fund types' debt from modified accrual to full accrual.

Component Units

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 19.

Proprietary Component Units are used to account for the discretely presented component units, which follow proprietary fund measurement focus and accounting principles. Component Unit 1, the Texas Agricultural Finance Authority (TAFA), operates the Texas Agricultural Fund (0683) as a Proprietary Component Unit of TDA. Component Unit 2, the Texas Boll Weevil Eradication Foundation, Inc. (TBWEF) operates from local funds as a Proprietary Component Unit of TDA. Financial data for these two Component units are included in *Exhibits VIII and IX*.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period that they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

The State of Texas considers receivables due at the end of the fiscal year and collected within 60 days after fiscal year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Basis conversion adjustment fund types convert modified accrued basis to full accrued basis of accounting. The following activities are recognized in these fund types:

- Capital assets
- Accumulated depreciation
- Unpaid employee compensable leave
- Outstanding debt service principal on long-term liabilities
- Leases
- Long-term claims and judgments
- Full accrual revenues and expenses
- Pension amounts in governmental activities

Proprietary fund types (enterprise funds and internal service funds) and fiduciary fund types (pension and other employee benefit trust funds, external investment trust funds and privatepurpose trust funds) except agency funds are accounted for on the full accrual basis of accounting. Under the full accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred.

Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds' principal ongoing operations. Operating expenses for the enterprise and internal services funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Budget and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Unencumbered appropriations are generally subject to lapse 60 days after fiscal year-end for which they were appropriated.

Assets, Liabilities, and Fund Balances/Net Positions

Assets

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three-months or less are considered cash equivalents.

Securities Lending Collateral

Investments are generally stated at fair value with certain exceptions in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*.

Invested security lending collaterals are measured at fair value.

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the operating statement. These costs are reported at gross.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally using the last-in, first-out method. Inventories for governmental fund types are the consumption method of accounting. The consumption method of accounting is used to account for inventories that appear in the proprietary fund types and the government-wide statements. The cost of these items is expensed when the items are used or consumed.

Capital Assets

Assets that meet the reporting threshold and useful life are capitalized. The capitalization threshold and the estimated useful life vary depending on the asset type. These assets are capitalized at cost or at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets (such as works of art and historical treasures) are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost if actual historical cost is not available. Donated capital assets are reported at fair value on the acquisition dated. Depreciation is charged to operations over the estimated useful life of each asset using the straight-line method.

Other Receivables – Current and Noncurrent

The disaggregation of other receivables as reported in the financial statements is disclosed in Note 24.

Liabilities

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Other Payables - Current and Noncurrent

The disaggregation of other payables as reported in financial statements is disclosed in Note 24.

Employees' Compensable Leave Balances

Employees' compensable leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

Lease Liabilities

Lease liability represents the amount recognized by a lessee on its financial statements regarding its leases. It is initially measured at the present value of lease payments and is remeasured whenever there is a change in lease payments or lease modification. Liabilities are reported separately as either current or non-current.

Bonds Payable – General Obligation Bonds

General obligation bonds are accounted for in the long-term liabilities adjustment column for governmental activities and in proprietary funds for business-type activities. These payables are reported as current (amounts due within one year) and non-current (amounts due thereafter) of long-term liabilities in the statement of net position. The bonds are reported at par, net of unamortized premiums, discounts, and gains/(losses) on bond refunding activities.

For governmental activities, bond proceeds are accounted for when received as an "other financing source" in the governmental fund receiving the proceeds. Payment of principal and interest is an expenditure recorded in the debt service fund. All bond transactions and balances for business-type activities are reported in proprietary funds.

Other Liabilities

Texas Boll Weevil Eradication Fund (Component Unit) has other liabilities relating to deferred compensation that is disclosed in Note 10.

Fund Balance/Net Position

"Fund Balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net Position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary, and fiduciary fund statements.

Fund Balance Components

The fund balance amounts for governmental funds were reclassified in accordance with GASB 54. Amounts previously reported as reserved and unreserved are now reported as non-spendable, restricted, committed, assigned, or unassigned.

Non-spendable Fund Balance

Non-spendable fund balance includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.

Restricted Fund Balance

Restricted fund balance includes those resources that have constraints placed on their use through external parties – such as creditors, grantors, contributors, laws, or regulations of other governments – or by law through constitutional provisions or enabling legislation.

Committed Fund Balance

Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level of decision-making authority.

Assigned Fund Balance

Assigned fund balance includes amounts constrained by the state's intent to be used for specific purposes, but the constraints do not meet the requirements to be reported as restricted or committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

Unassigned Fund Balance

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not restricted, committed. or assigned to specific purposes within the general fund.

Net Investment In Capital Assets

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Position

Restricted net position results when constraints placed on net resources are either externally imposed by creditors, grantors, contributors and the like or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net position consists of net resources that do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

Interfund Activities and Transactions

The agency has the following types of transactions among funds:

1) Transfers – Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.

- 2) Reimbursements Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- 3) Interfund Receivables and Payables Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, the balance is classified as "Current." Balances for repayment due in two (or more) years are classified as "Noncurrent."
- 4) Interfund Sales and Purchases Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund (interfund services provided) and expenditures or expenses of the disbursing fund (interfund services used).

The composition of the agency's Inter-fund activities and balances are presented in Note 12

See Exhibit K-1

The Texas Agriculture Finance Authority has issued commercial paper to provide funds for loans on agricultural activity. The commercial paper is refunded generally every 90 days, but it may range from 1-270 days throughout the year determined by the financial markets. TAFA incurred interest rates varying from 0.37% to 0.73%

Claims & Judgments

The department had no unpaid judgments at August 31, 2023. (See Note 15: Contingencies and Commitments).

NOTE 5: LONG-TERM LIABILITIES (CONTINUED)

Employees' Compensable Leave

If a state employee has had continuous employment with the state for at least six months, the state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal, or separation from state employment. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. An expense and liability for proprietary fund types are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

NOTE 6: BONDED INDEBTEDNESS

This note is not applicable to the Texas Department of Agriculture.

NOTE 7: DERIVATIVE INSTRUMENTS

Derivative investments are managed by the Texas Treasury Safekeeping Trust Company for the Rural Community Health Care Investment Program Fund 0364.

Derivatives are financial instruments whose value is derived, in whole or part, from the value of any one of more underlying securities or assets, or index of securities or assets, such as stocks, bonds, commodities, or currencies. The Endowment funds use derivatives as part of the portfolio hedging and overlays program. The objective of the program is to facilitate risk management and provide efficiency in the implementation of various investment strategies. Permitted applications of the portfolio hedging and overlays program are: to implement strategies in a low cost and efficient manner; to hedge and control risks; to alter the Endowment funds' market (systemic) exposure without trading the underlying cash market securities; to construct portfolios with risk and return characteristics that could not be created with cash market securities; or to facilitate transition trading.

Through the use of derivatives, the risks that are bound together in traditional cash market investments can be separated and managed independently. The primary intent of the Endowment funds' investment in derivative instruments is to manage and implement investment strategies more effectively and at a lower cost than would be possible in the cash market. All of the Endowment funds' derivative instruments are considered investment derivatives and therefore are measured and reported at fair value.

The fair value, changes in fair value, and notional value of the Fund's derivatives investments, classified by derivative type, are displayed in the following table as of August 31, 2023.

NOTE 9: PENSION PLANS

The state has joint contributory retirement plans for all its employees. The Texas Department of Agriculture participates in the plans administered by the Employees Retirement System of Texas (ERS). Future pension costs are the liability of the ERS. The ERS does not account for each state agency separately. Annual financial reports prepared by the ERS include audited financial statements and actuarial assumptions and conclusions.

NOTE 10: DEFERRED COMPENSATION

The state of Texas offers the Employees Retirement System (ERS) Texa\$aver 401(k) / 457(b) Program to all state employees. The Texa\$aver Program is a deferred compensation plan and is another employee benefit. Per Texas Government Code (TGC) Chapter 609.502, the board of trustees of ERS establishes the rules for any deferred compensation plan. The state of Texas does not contribute to either plan in the Texa\$aver Program. These plans are established in accordance with Internal Revenue Code (IRC), Section 457(b) and IRC, Section 401(k). All costs of administering and funding these programs are the responsibility of plan participants. The assets of the two plans remain the property of the contributing employees and are not presented in the accompanying financial statements. The state makes no contributions to either plan, the assets do not belong to the state and the state has no liability related to the plans.

Texas Boll Weevil Eradication Foundation Component Unit

Effective January 1, 2012, the Foundation adopted a 457(b) deferred compensation plan to provide an investment alternative for a select group of management and highly compensated employees who are restricted from fully participating in the Foundation's 401(k) plan due to IRS limitations. This plan is intended to constitute an "eligible deferred compensation plan" of a tax-exempt entity. During a plan year, the Foundation will contribute to each participant's account an amount equal to the lesser of 12% of includible compensation or the Annual Deferred Compensation Limit prescribed by law. In accordance with the plan, the Foundation holds the investments related to all employer contributions and participants are fully vested in these. The Foundation's contribution for the year ended December 31, 2022, was \$61,371 and the total balance was \$849,742 on December 31, 2022. This balance is included on the statement of net position as restricted investments with an offsetting liability.

NOTE 11: POST EMPLOYMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

This note is not applicable to the Texas Department of Agriculture.

NOTE 12: INTERFUND ACTIVITY AND TRANSACTIONS

As explained in Note 1 under Interfund Activities and Transactions, there are four types of transactions between funds. As of August 31, 2023, the amounts to be received or paid are reported as Interfund Receivables or Interfund Payables, and Legislative Transfers-In or Legislative Transfers-Out.

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer.

NOTE 13: CONTINUANCE SUBJECT TO REVIEW

Senate Bill 703, 87th Leg., was approved with final results in June 2021 relating to the continuance of the Texas Department of Agriculture for another 12 years. TDA is subject to Chapter 325 of the Texas Government Code cited as the Texas Sunset Act. Unless continued in existence as provided by that chapter, the department is abolished September 1, 2033. If abolished, the agency may continue until September 1, 2034, to close out its operations.

While abolition of TDA would impact continued operations of TAFA, S.B. No. 11, 65th Leg., C.S. (1977) recognized the state's continuing obligation to pay bonded indebtedness incurred by the TAFA and provides for such bonded indebtedness to be paid in accordance with its terms.

NOTE 14: ADJUSTMENTS TO FUND BALANCES/NET ASSETS

During fiscal 2023, certain accounting changes and adjustments were made that required the restatement of fund balances or net position. The restatements are presented below.

	Capital Asset Adjustments	Long Term Liabilities
Change in Net Position September 1, 2022	\$ 8,195,663.54	\$ (7,224,041.13)
Current Year's Restatements	636,877.23	(637,565.56)
Change in Net Position September 1, 2022 as Restated	\$ 8,832,540.77	\$ (7,861,606.69)

Restatement is required due to the implementation of GASB 87 which reclassifies right to use leased assets to long-term liabilities.

Restatement is required due to the implementation of GASB 96, which requires the restatement for Subscription-Based Information Technology Arrangements to long term liabilities.

NOTE 15: CONTINGENCIES AND COMMITMENTS

Contingencies

Unpaid Claims and Lawsuits

As of August 31, 2023, certain lawsuits were pending against TDA. The lawsuits, which may present contingent liabilities, are displayed below.

Claimant/ Plaintiff	Defendant Name	Type of Litigation	Damages Sought	Probability or Liability	Possible Loss	Description of Case
Gilberto Elizondo	TDA	Tort- personal	Between \$31,500	Probable	Unknown	Motor Vehicle Accident with

			\$136,119			employee.

Commitments

TAFA Commitments:

TAFA previously provided direct loans to eligible rural municipal projects through the Rural Development Finance Program. While this program no longer exists, there are remaining performing loans associated with the program. Total outstanding direct commitments on August 31, 2023 were \$992,000.00.

NOTE 16: SUBSEQUENT EVENTS

This note is not applicable to the Texas Department of Agriculture.

NOTE 17: RISK MANAGEMENT

The Texas Department of Agriculture is exposed to a variety of civil claims resulting from the performance of its duties. It is the agency's policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

The agency assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently there is no purchase of commercial insurance nor is the agency involved in any risk pools with other government entities.

The agency's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include the amount for claims that have been incurred but not reported. Liabilities are re-evaluated periodically to consider current settlements, frequency of claims, past experience and economic factors.

There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past three years.

Changes in the balances of the agency's claims liabilities during fiscal 2022 and 2023 were:

Note 17 Risk Management					
Claims and Judgements					
Beginning Balance Increases Decreases Ending Balance					
2023	\$-	\$16,446.90	(\$16,446.90)	\$ -	
2022	\$-	\$92,123.47	(\$92,123.47)	\$ -	

NOTE 18: MANAGEMENT DISCUSSION AND ANALYSIS (MD&A)

GASB 87 was implemented in fiscal year 2022. The Texas Department of Agriculture is now required to recognize certain leases as assets and liabilities that were previously classified as operating leases.

GASB 96 was implemented in fiscal year 2023. The Texas Department of Agriculture is now required to recognize certain subscription-based information technology arrangements as assets and liabilities that were previously classified as operating expenses.

NOTE 19: THE FINANCIAL REPORTING ENTITY

The Texas Department of Agriculture includes within this report all component units as determined by an analysis of their relationship to the department.

The Texas Agricultural Finance Authority, which was created within TDA, is discretely presented as a separate component unit in TDA 's financial statements. The Texas Boll Weevil Eradication Foundation, Inc. (a non-profit agency) is discretely presented as a separate component unit in TDA 's financial statements.

Blended Component Units

No component units have been identified which should have been blended into an appropriate fund.

Discrete Component Units

These component units are legally separate entities but are financially accountable to the state or have a relationship with the state such that exclusion would cause the financial statements to be misleading or incomplete. The component unit columns of the financial statements include the financial data of these entities.

- Component Unit 1 is the Texas Agricultural Finance Authority (TAFA), created within the Texas Department of Agriculture. Nine board members including seven members being appointed by the Commissioner of the Texas Department of Agriculture govern TAFA. This Component Unit has the following funds: Young Farmer Fund 5002 which was converted from a governmental fund to a proprietary fund by the 81st Legislature and proprietary funds named Agriculture Fund 0683 and Farm and Ranch Fund 0575.
- Component Unit 2 is the Texas Boll Weevil Eradication Foundation, Inc. (TBWEF). Twenty-one board members govern the TBWEF with five members appointed by the TDA Commissioner. In addition, TDA approves the TBWEF budget and assessment fees, and the Foundation cannot incur debt without TDA approval. This Component Unit has Fund 5998 and Appropriated Fund 9999. The fiscal year end for TBWEF was December 31, 2022, which is different from TDA's fiscal year end of August 31, 2023.

Related Parties

Relationship with Texas Cooperative Inspection Program

Texas statutes have provided for the inspection of fruits and vegetables since 1917, with the costs being borne by growers, shippers, and shippers' agents, rather than the state. Since 1935, the Texas Department of Agriculture has been authorized by state law to execute cooperative agreements with the United States Department of Agriculture (USDA), adopt federal grading standards as the Texas standard, and, since 1955, to execute cooperative agreements with USDA and any Texas firm, corporation or association which provides for the inspection of fruits, vegetables and other products.

In February of 1992, the department entered into a cooperative agreement with the USDA to conduct inspections of fruits and vegetables, effective May of 1992. Under this agreement, inspections are conducted through the Texas Cooperative Inspection Program (TCIP). TCIP is a self-supporting program, operating from fees levied on participants and without appropriations from either the federal or state governments. The cooperative agreement calls for the department to receive up to 15 percent of the inspection fees collected in order to cover the department's program and administrative costs in overseeing the day-to-day operation of TCIP.

NOTE 20: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The unrestricted net position of the Texas Agricultural Fund 0683 is \$8,998,069.45. S.B. 1016, 81st Legislature, established the following set of self-sustaining TAFA programs: the Agriculture Loan Guarantee Program; the Agriculture Interest Rate Reduction Program (previously the Linked Deposit Program); the Young Farmer Interest Rate Reduction Program; and the Young Farmer Grant Program. All programs are funded by the Texas Agriculture Fund utilizing the farm vehicle tag fees and interest income.

NOTE 25: TERMINATION BENEFITS

This note is not applicable to the Texas Department of Agriculture.

NOTE 26: SEGMENT INFORMATION

Proprietary segments of the Texas Department of Agriculture include the Texas Agricultural Finance Authority (0683) and the Texas Boll Weevil Eradication Foundation (5998). See Exhibits K–1 and K-2.

The Texas Agricultural Finance Authority (TAFA) provides financial assistance for the expansion, development, and diversification of producing, processing, marketing, and exporting Texas agricultural products. TAFA works in conjunction with financial institutions to offer loan guarantees and interest rate reduction assistance to creditworthy individuals and businesses working to enhance a current agricultural operation or to establish a new one. The current products offered through this program include Young Farmers Grant, Interest Rate Reduction, Young Farmers Interest Rate Reduction, and Agricultural Loan Guarantee.

The Texas Boll Weevil Eradication Foundation was established for the exclusive purpose of promoting and carrying out boll weevil and pink bollworm eradication and suppression. Authority exists for the Foundation to carry out programs for eradication and/or diapause to eliminate the boll weevil and the pink bollworm from cotton in the state of Texas in the Texas Agriculture Code Title 5, Subtitle B, Chapter 74, Subchapter A, Sec 74.001.

NOTE 27: SERVICE CONCESSION ARRANGEMENTS

This note is not applicable to the Texas Department of Agriculture.

NOTE 28: DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES

In fiscal 2023, Texas Department of Agriculture reported deferred inflows of resources in connection with derivative instruments invested with Texas Treasury Safekeeping Trust Company.

Business-Type Activities	Deferred Outflows of Resources	Deferred Inflows of Resources
Derivatives (Note 7)	\$2,344.90	
Total	\$2,344.90	

Deferred outflows of resources of \$2,344.90 in business-type activities were related to investment derivatives in a liability position.

NOTE 29: TROUBLE DEBT RESTRUCTURING

This note is not applicable to the Texas Department of Agriculture.

NOTE 30: NON-EXCHANGE FINANCIAL GUARANTEES

TAFA's Agricultural Loan Guarantee Program provides for the following in regards to a maximum loan guarantee amount:

- \$250,000 or 90% of the loan amount, whichever is less
- \$500,000 or 80% of the loan amount, whichever is less
- \$750,000 or 70% of the loan amount, whichever is less

The duration of a loan guarantee approved by TAFA must not exceed the useful life of the assets being financed or 10 years, whichever is less.

TAFA is under no obligation to purchase the guaranteed percentage of the outstanding principal balance of the Loan until Lender has exhausted all possible collection activities concerning the Loan, including, but not limited to, foreclosure of collateral, obtaining a monetary or other judgment against borrower enforcing the terms of the Loan, and taking commercially reasonable steps to enforce and collect such judgment. Once Lender has completed all possible collection activities concerning the Loan, and all repayment proceeds, including proceeds from the sale or liquidation of collateral, have been applied to the Loan, Lender may demand in writing that TAFA purchase the guaranteed percentage of the outstanding principal balance of the Loan unless such amount is zero dollars or less. Lender must include in its demand its calculation of the outstanding principal balance of the Loan (showing a positive amount due by TAFA), a transcript of the Loan account, and any other Loan records requested by TAFA.

As of August 31, 2023 TAFA had \$3,683,481.73 in outstanding loan guarantees related to agriculture producer or agriculture-related business loans with various commercial banking or Farm Credit System institutions. TAFA does not currently anticipate and has not recognized any liabilities or payments related to the loans guaranteed under its Agricultural Loan Guarantee Program as of August 31, 2023.
