DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This label must be in the possession of the user at the time of application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA-registered label.

- The risk of crop injury increases when adjuvants (e.g., non-ionic surfactants, crop oils, etc.), nitrogen sources (e.g., AMS, UAN), fertilizers or other pesticides are applied with Dual Magnum Herbicide.

Collard, Kale, Mustard and Turnip Greens

Dual Magnum Herbicide will not control emerged weeds. For effective weed control, Dual Magnum Herbicide must be applied to cleaned-tilled soil.

Apply Dual Magnum Herbicide as broadcast rates of 0.5 pt./A to 0.67 pt./A (0.47-0.64 lb ai/A) to the soil surface as a preemergence application (i.e. prior to crop and weed emergence). In that rate range, use lower rates on soil relatively coarse-textured and higher rates on fine-textured soils. A band application may also be used if the crop is not planted in a trench or depressed bed, applying proportionally less spray mixture on the area actually treated. Dual Magnum Herbicide will not control emerged weeds. Control emerged weeds with an appropriate registered foliar herbicide or by mechanical or physical means. For irrigated leafy greens: Irrigate with sprinkler or furrow irrigation within two days of Dual Magnum Herbicide application.

Precautions:

- 1) When environmental conditions result in cool temperature and/or wet soils, application of Dual Magnum Herbicide may cause significant injury to leafy greens resulting in reduced yields.

Restrictions:

- 2) Do not incorporate
- 3) Do not apply this product through any type of irrigation system
- 4) Make only one application of Dual Magnum Herbicide per crop
- 5) Do not exceed more than 0.67 pts./A (0.64 lb ai/A) of Dual Magnum Herbicide. Do not apply more than 0.64 lb ai/A of S-metolachlor-containing products.
- 6) Do not harvest within 30 days of application
