As the federal appropriation process continues in Washington, TDA is preparing to move forward with 2026 application development. Beginning these early steps now will allow the program to move forward promptly when funds become available.

The CDV Score Sheets for each state planning region have been updated on the TDA webpage - [TxCDBG Community Development Fund](#) - the Applicants shaded in blue are estimated to be in funding range for 2026.

Please note: This estimate is based on 2025 funding levels and is NOT guaranteed – the list will be updated once the final federal appropriation is known.

If your community is shaded in blue, please begin the Project Application process by addressing the following items:

1. Conduct the required public hearing
2. Select / procure a grant administrator and project engineer, if not completed during the Community Application Phase – once these team members are formally selected, they can assist you with the application.
3. Begin discussions with the project team to identify an eligible project.

Once the federal funding is finalized, the Project Application Guide will be updated and published with appropriate deadlines. At that time, TDA will change the status of the application in TDA-GO to allow the Project Application to be completed and will notify individual applicants of this change. This year will require a shorter timeline (see draft [Colonia Fund](#) guide for sample dates) so please do not wait to begin these basic application preparation steps.

Program Year 2025 Stakeholder Outreach Sessions

TDA is continuing its Regional Stakeholder Outreach sessions – hosted in each state planning region across the state. In addition, TDA will host a virtual session for the same material. Information on the virtual session, as well as the regional meetings, can be found on the TDA website [Training and Events](#):

Stakeholder Outreach Meeting	January 29, 2026, 2:00PM CST
