TDA has determined that the agency will not open the Fire, Ambulance, and Service Truck (FAST) Fund for new applications in 2024. This decision is based on current funding availability and the timeline to secure new fire protection and medical response vehicles.

TDA encourages communities and regions hoping to access the FAST Fund to consider these needs when identifying their overall community needs for the 2025 Community Development (CD) Fund application, which will open in the fall of 2024. Each state planning region is currently in the process of setting project priorities for the 2025 CD Fund – dates for the public meeting to determine these priorities are posted to the TDA website [here](#) as they become available.
