WARNING: This email originated from outside of the Texas Department of Agriculture email system. DO NOT click links or open attachments unless you expect them from the sender and know the content is safe.

TDA-GO is now available for all grants awarded in program years 2019 and 2020.

While all information selected for the migration has been populated, TDA staff is continuing to verify the data and update the status of each document. Please log in and begin to review your grant information by Monday, July 11

- TDA-GO are assigned using the existing grant number and the prefix "CL" to indicate they are CDBG Legacy grants.
- Because the data collected in TDA's previous database differs from the specific data points collected in TDA-GO, the migrated documents may appear to be incomplete. There is no need to re-enter data previously reported in another format unless you are directed to do so by a TDA staff member.
- If you identify a data error – cases where the reported data is incorrect – please contact your Grant Specialist to discuss or submit a [TDA-GO Staff Support Ticket](#).
- If you identify a document that is missing or that should be updated – for example, a construction contractor with no Materials and Services Report, or a vendor with change orders that are not reflected in the current data – please use the TDA-GO standard functions to report the grant information as needed.
- If you are unable to view a document at all – your account is most likely not yet added to the document. TDA is actively adding consultants to the grant documents and we appreciate your patience. The Grant Recipient is also able to add your organization members or invite third party consultants to a grant document immediately.
- Key attachments will be uploaded to the grants over the coming weeks, including the executed grant agreements.
- The 2022 TxCDBG Project Implementation Manual is effective for all grants at this time unless specifically directed by the TxCDBG Directors. We have added to our [website](#) several How-To guides for various steps in the process and will continue to do so.

Thank you all for your patience throughout this process. We look forward to working with each of you as we continue these projects through to completion.
