TDA has completed calculations to [allocate 2023 CDV funds among the 24 regions](#) based on the established formula. TDA has also posted the historical allocations based on stakeholder request.

The 2023 calculations include a significant data update. The 2010 decennial population data required by the formula has been updated with the current 5-year ACS population data, as well as the annual updates to poverty, housing, and unemployment data.

This allocation will be used for the first round of awards in the upcoming [Community Development Fund \(CDV\)](#) application cycle. Regional allocations for 2024 are expected to be available next Spring, following the Fiscal Year 2024 federal budget and appropriation process.
