

## **HUD Consolidated Plan Process**

As part of the Consolidated Plan process (5-year plan), TDA is evaluating the Texas CDBG program. Stakeholder input is welcome for all areas of the TxCDBG program.

- **Disaster Impact Task Force** – the Commissioner of Agriculture is appointing a task force of stakeholders from across the state to provide recommendations on the best ways that TxCDBG funding can assist disaster-impacted communities.
- **Community Planning** – TDA is seeking best practices for supporting planning efforts in rural communities.
- **Economic Development** – TDA is open to discussion regarding support for economic development in rural Texas:
  - **Main Street / Downtown Revitalization Program** – are the recent updates to the maximum grant and project priority scoring appropriate/adequate?
  - **Job Creation** – what specific updates would make the Texas Capital Fund Infrastructure/Real Estate better meet the needs of rural Texas?
- **Community Development** – an update to the previous Regional Review Committee structure has become necessary. The revised structure will retain the regional funding formula and regional project type priorities, but will not include 24 separately appointed committees.
- **Other** – stakeholder feedback and recommendations are welcome on any other current or potential programs of TxCDBG program.
